
CONCURRENCY AND COMPUTATION PRACTICE & EXPERIENCE

CONTENTS

Volume 19 Number 1 **January 2007**

The Parallel Image Processing Environment (PIPE): automated parallelization of satellite data analyses
J. J. Simpson, T. J. McIntire, J. S. Berg and Y. L. Tsou 1

Performance and effectiveness trade-off for checkpointing in fault-tolerant distributed systems
P. Katsaros, L. Angelis and C. Lazos 37

Parallel four-dimensional Haralick texture analysis for disk-resident image datasets
B. Woods, B. Clymer, J. Heverhagen, M. Knopp, J. Saltz and T. Kurc 65

Grid benchmarking: vision, challenges, and current status
M. D. Dikaiakos 89

An optimization approach for decentralized QoS-based scheduling based on utility and pricing in Grid computing
L. Chunlin and L. Layuan 107

Volume 19 Number 2 **February 2007**

Special Issue

Selected Papers from the 2004 U.K. e-Science All Hands Meeting (AHM 2004)

Editorial
D. W. Walker, M. P. Atkinson and I. Sommerville 129

Developing LHCb Grid software: experiences and advances
I. Stokes-Rees, A. Tsaregorodtsev, V. Garonne, R. Graciani, M. Sanchez, M. Frank and J. Closier 133

Optimization of integrated Earth System Model components using Grid-enabled data management and computation
A. R. Price, G. Xue, A. Yool, D. J. Lunt, P. J. Valdes, T. M. Lenton, J. L. Wason, G. E. Pound, S. J. Cox and the GENIE team 153

Supporting scientific discovery processes in Discovery Net
J. Syed, M. Ghanem and Y. Guo 167

Recycling workflows and services through discovery and reuse
C. Wroe, C. Goble, A. Goderis, P. Lord, S. Miles, J. Papay, P. Alper and L. Moreau ... 181

The importance of locality in the visualization of large datasets
J. M. Brooke, J. Marsh, S. Pettifer and L. S. Sastry 195

Catalyzer: a novel tool for integrating, managing and publishing heterogeneous bioscience data
F. W. Howell, R. C. Cannon and N. H. Goddard 207

Service-oriented architecture on the Grid for integrated fault diagnostics
X. Ren, M. Ong, G. Allan, V. Kadirkamanathan, H. A. Thompson and P. J. Fleming 223

Applying the Grid to 3D capture technology
L. Mackenzie, P. Cockshott, V. Yarmolenko, E. Borland, P. Graham and K. Kavoussanakis 235

e-Science and artificial neural networks in cancer management
S. D. Dolgobrodov, R. Marshall, P. Moore, R. Bittern, R. J. C. Steele and A. Cuschieri 251

Volume 19 Number 3 10 March 2007

Special Issue

Parallel and Distributed Systems: Testing and Debugging (PADTAD)

Editorial
S. Ur 265

Towards a framework and a benchmark for testing tools for multi-threaded programs
Y. Eytani, K. Havelund, S. D. Stoller and S. Ur 267

A method for verifying concurrent Java components based on an analysis of concurrency failures
B. Long, P. Strooper and L. Wildman 281

Distributed desk checking
A. Hayardeny, S. Fienblit and E. Farchi 295

An instrumentation technique for online analysis of multithreaded programs
G. Roşu and K. Sen 311

MultiRace: efficient on-the-fly data race detection in multithreaded C++ programs
E. Pozniansky and A. Schuster 327

Choosing among alternative pasts
M. Biberstein, E. Farchi and S. Ur 341

A methodology for early validation of cache coherence protocols based on relational databases
M. Subramaniam and P. Conway 355

Volume 19 Number 4 25 March 2007

Parallelization and scalability issues of a multilevel elastohydrodynamic lubrication solver
C. E. Goodyer and M. Berzins 369

MRMOGA: a new parallel multi-objective evolutionary algorithm based on the use of multiple resolutions
A. L. Jaimes and C. A. Coello Coello 397

Using parallelization and hardware concurrency to improve the performance of a genetic algorithm
V. Tirumalai, K. G. Ricks and K. A. Woodbury 443

Performance of computationally intensive parameter sweep applications on Internet-based Grids of computers: the mapping of molecular potential energy hypersurfaces
S. Reyes, C. Muñoz-Caro, A. Niño, R. M. Badia and J. M. Cela 463

A distributed packed storage for large dense parallel in-core calculations
M. Baboulin, L. Giraud, S. Gratton and J. Langou 483

Reengineering for Parallelism: an entry point into PLPP for legacy applications
B. L. Massingill, T. G. Mattson and B. A. Sanders 503

Stabilizing large-scale generalized systems on parallel computers using multithreading and message-passing
P. Benner, M. Castillo, R. Mayo, E. S. Quintana-Ortí and G. Quintana-Ortí 531

An analytical study on optimizing the lookup performance of distributed hash table systems under churn
D. Wu, Y. Tian and K. W. Ng 543

Volume 19 Number 5 10 April 2007

Special Issue

Component and Framework Technology in High-Performance and Scientific Computing

Editorial
D. E. Bernholdt 571

High-speed network and Grid computing for high-end computation: application in geodynamics ensemble simulations
S. Zhou, W. Kuang, W. Jiang, P. Gary, J. Palencia and G. Gardner 573

Cross-organization interoperability experiments of weather and climate models with the Earth System Modeling Framework
S. Zhou, V. Balaji, C. Cruz, A. da Silva, C. Hill, E. Kluzek, S. Smithline, A. Trayanov and W. Yang 583

A component-based nuclear power plant simulator kernel
M. Díaz, D. Garrido, S. Romero, B. Rubio, E. Soler and J. M. Troya 593

Comparison of frameworks for a next-generation multiphase flow solver, MFIX: a group decision-making exercise
A. Gel, S. Pannala, M. Syamlal, T. J. O'Brien and E. S. Gel 609

Component-based iterative methods for sparse linear systems
J. Jones, M. Sosonkina and Y. Saad 625

Component-oriented application construction for a Web service-based Grid
R. Schmidt, S. Benkner, I. Brandic and G. Engelbrecht 637

Design and implementation issues for distributed CCA framework interoperability
M. Govindaraju, M. J. Lewis and K. Chiu 651

Debugging high-performance component-based applications
T. Wilde and J. A. Kohl 667

Performance modeling of component assemblies
N. Trebon, A. Morris, J. Ray, S. Shende and A. D. Malony 685

Towards an architecture for component-oriented parallel programming
F. H. Carvalho Junior, R. D. Lins, R. C. Corrêa and G. A. Araújo 697

Productivity and performance through components: the ASCI Sweep3D application
Y. Yoon, J. C. Browne, M. Crocker, S. Jain and N. Mahmood 721

Volume 19 Number 6 **25 April 2007**

Special Issue

Science Gateways—Common Community Interfaces to Grid Resources

Editorial
N. Wilkins-Diehr 743

CCLRC Portal infrastructure to support research facilities
A. Akram, D. Chohan, D. Meredith and R. Allan 751

The LEAD Portal: a TeraGrid gateway and application service architecture
M. Christie and S. Marru 767

Enabling community access to TeraGrid visualization resources
J. Binns, J. DiCarlo, J. A. Insley, T. Leggett, C. Lueninghoener, J.-P. Navarro and M. E. Papka 783

The GridSAT portal: a Grid Web-based portal for solving satisfiability problems using the national cyberinfrastructure
W. Chrabakh and R. Wolski 795

The Neutron Science TeraGrid Gateway: a TeraGrid science gateway to support the Spallation Neutron Source
J. W. Cobb, A. Geist, J. A. Kohl, S. D. Miller, P. F. Peterson, G. G. Pike, M. A. Reuter, T. Swain and S. S. Vazhkudai and N. N. Vijayakumar 809

Flexibility and user-friendliness of Grid portals: the PROGRESS approach
M. Bogdanski, M. Kosiedowski, C. Mazurek, M. Rabiega and M. Wolniewicz 827

Science gateways to DEISA: user requirements, technologies, and the material sciences and plasma physics gateway
T. Soddemann 839

HPC-Europa single point of access as a framework for building science gateways
A. Oleksiak, A. Tullo, P. Graham, T. Kuczyński, J. Nabrzyski, D. Szejnfeld and T. Sloan 851

e-Business applications on the Grid: a toolkit for centralized workload prediction and access
K. Dolkas, D. Kyriazis, A. Menychtas and T. Varvarigou 867

GridASP: an ASP framework for Grid utility computing
H. Ogawa, S. Itoh, T. Sonoda and S. Sekiguchi 885

A AAAA model to support science gateways with community accounts
V. Welch, J. Barlow, J. Basney, D. Marcusiu and N. Wilkins-Diehr 893

Science gateways made easy: the In-VIGO approach
A. M. Matsunaga, M. O. Tsugawa, S. Adabala, R. J. Figueiredo, H. Lam and J. A. B. Fortes 905

The Open Grid Computing Environments collaboration: portlets and services for science gateways
J. Alameda, M. Christie, G. Fox, J. Futrelle, D. Gannon, M. Hategan, G. Kandaswamy, G. von Laszewski, M. A. Nacar, M. Pierce, E. Roberts, C. Severance and M. Thomas 921

Volume 19 Number 7 May 2007

Special Issue
Autonomous Grid Computing

Editorial
G. C. Fox and H. Zhuge 943

Usage SLA-based scheduling in Grids
C. L. Dumitrescu, I. Raicu and I. Foster 945

Multiple states based temporal consistency for dynamic verification of fixed-time constraints in Grid workflow systems
J. Chen and Y. Yang 965

Management of real-time streaming data Grid services
G. Fox, G. Aydin, H. Bulut, H. Gadgil, S. Pallickara, M. Pierce and W. Wu 983

Topology awareness of overlay P2P networks
H. Rostami and J. Habibi 999

P2PGrid: integrating P2P networks into the Grid environment
J. Cao, F. B. Liu and C.-Z. Xu 1023

Distribution of mobile agents in vulnerable networks
W. Qu, M. Kitsuregawa, H. Shen and Y. Jin 1047

Autonomous semantic link networking model for the Knowledge Grid
H. Zhuge 1065

Networking scientific resources in the Knowledge Grid environment
H. Zhuge, L. Ding and X. Li 1087

Volume 19 Number 8 10 June 2007

Special Issue
Performance Analysis and Enhancements of Wireless Networks

Editorial
I. Awan and G. Min 1115

Effect of redundancy on the mean time to failure of wireless sensor networks
A. P. Speer and I.-R. Chen 1119

DS/CDMA throughput of a multi-hop sensor network in a Rayleigh fading underwater acoustic channel
C. H. Mar and W. K. G. Seah 1129

Modeling and evaluation of congestion control for different classes of network traffic
L. Wang, G. Min and I. Awan 1141

EZRP: an enhanced zone-based routing protocol for *ad-hoc* networks
A. Koyama, J. Arai, L. Barolli and A. Durresi 1157

Augmenting Reed–Solomon coding with retransmission for error recovery in 3G video broadcasts
K. Kang, Y. Cho and H. Shin 1171

Distributed communication model in hierarchical Infostation systems
M. Tlais and F. Weis 1183

Mobility management in hybrid *ad-hoc* networks and the Internet environment
M. K. Denko 1193

SCTP performance evaluation over heterogeneous networks
A. Dainotti, S. Loreto, A. Pescapé and G. Ventre 1207

QoS-aware mobile service transactions in a wireless environment
M. Younas, K.-M. Chao, P. Wang and C.-L. Huang 1219

Towards building a conflict-free mobile distributed file system
A. Boukerche and R. A. Al-Shaikh 1237

Volume 19 Number 9 25 June 2007

Special Issue

Second International Workshop on Emerging Technologies for Next-generation GRID (ETNGRID 2005)

Editorial
C. Anglano 1251

Job completion prediction using case-based reasoning for Grid computing environments
L. N. Nassif, J. M. Nogueira, A. Karmouch, M. Ahmed and F. V. de Andrade 1253

A peer-to-peer decentralized strategy for resource management in computational Grids
A. Di Stefano and C. Santoro 1271

Direct application access to Grid storage
R. Andersen and B. Vinter 1287

Design and evaluation of a high-level Grid communication infrastructure
F. Messina, G. Pappalardo and E. Tramontana 1299

A PDA client for the computational Grid
M. Parkin and J. M. Brooke 1317

Achieving fine-grained access control in virtual organizations
N. Zhang, L. Yao, A. Nenadic, J. Chin, C. Goble, A. Rector, D. Chadwick, S. Otenko and Q. Shi 1333

A Grid-based algorithm for the solution of non-Markovian stochastic Petri nets
S. Distefano, A. Puliafito and M. Scarpa 1353

Volume 19 Number 10 July 2007

Implementation of mixed precision in solving systems of linear equations on the Cell processor
J. Kurzak and J. Dongarra 1371

Parallel space-filling curve generation through sorting
J. Luitjens, M. Berzins and T. Henderson 1387

Parallelization and scalability of a spectral element channel flow solver for incompressible Navier–Stokes equations
C. W. Hamman, R. M. Kirby and M. Berzins 1403

Efficient parallelization of the iterative solution of a coupled fluid–structure interaction problem
M. D. Hughes and K. Chen 1423

Volume 19 Number 11 10 August 2007

Special Issue

European–American Working Group on Automatic Performance Analysis (APART)

Editorial
M. Gerndt and J. Gurd 1447

Specification and detection of performance problems with ASL
M. Gerndt and K. Fürlinger 1451

A test suite for parallel performance analysis tools
M. Gerndt, B. Mohr and J. L. Träff 1465

Automatic analysis of inefficiency patterns in parallel applications
F. Wolf, B. Mohr, J. Dongarra and S. Moore 1481

Knowledge engineering for automatic parallel performance diagnosis
L. Li and A. D. Malony 1497

MATE: Monitoring, Analysis and Tuning Environment for parallel/distributed applications
A. Morajko, P. Caymes-Scutari, T. Margalef and E. Luque 1517

Incremental call-path profiling
A. R. Bernat and B. P. Miller 1533

Cluster systems and simulation: from benchmarking to off-line performance prediction
B. Di Martino, E. Mancini, M. Rak, R. Torella and U. Villano 1549

Volume 19 Number 12 25 August 2007

Special Issue
Workshop on Grid Computing Portals (GCE 2005)

Editorial
M. Thomas 1563

An application portal for collaborative coastal modeling
C. Zhang, C. Dekate, G. Allen, I. Kelley and J. MacLaren 1571

A workflow portal supporting multi-language interoperation and optimization
L. Huang, A. Akram, R. Allan, D. W. Walker, O. F. Rana and Y. Huang 1583

GEONGrid portal: design and implementations
C. Youn, C. Baru, K. Bhatia, S. Chandra, K. Lin, A. Memon, G. Memon and D. Seber 1597

Fostering collaboration to better manage water resources
W. Voorsluys, E. Araújo, W. Cirne, C. O. Galvão, E. P. Souza and E. P. Cavalcanti ... 1609

Connecting users to instruments and sensors: portals as multi-user GUIs for instrument and sensor facilities
D. F. McMullen and K. Huffman 1621

Developing portals/portlets using Enterprise JavaBeans for Grid users
X. Yang, A. Akram and R. J. Allan 1633

Using the Sakai collaborative toolkit in e-Research applications
C. Severance, J. Hardin, G. Golden, R. Crouchley, A. Fish, T. Finholt, B. Kirschner, J. Eng and R. Allan 1643

Plugging grids into computing portals: the PROGRESS grid resource broker plug-in mechanism
M. Bogdanski, M. Kosiedowski, C. Mazurek, M. Rabiega and M. Wolniewicz 1653

The Grid Resource Broker portal
G. Aloisio, M. Cafaro, G. Carteni, I. Epicoco, S. Fiore, D. Lezzi, M. Mirto and S. Mocavero 1663

Cooperative Grid Vortals
T. Haupt and A. Kalyanasundaram 1671

A portal for visualizing Grid usage
G. von Laszewski, J. DiCarlo and B. Allcock 1683

Plug-and-play remote portlet publishing
X. D. Wang, X. Yang, R. J. Allan and M. Baker 1693

Portal-based Knowledge Environment for Collaborative Science
K. Schuchardt, C. Pancerella, L. A. Rahn, B. Didier, D. Kodeboyina, D. Leahy, J. D. Myers, O. O. Oluwole, W. Pitz, B. Ruscic, J. Song, G. von Laszewski and C. Yang 1703

VLab: collaborative Grid services and portals to support computational material science
M. A. Nacar, M. S. Aktas, M. Pierce, Z. Lu, G. Erlebacher, D. Kigelman, E. F. Bollig, C. R. S. da Silva, B. Sowell and D. A. Yuen 1717

Investigation of WSRP support in selected open-source portal frameworks
X. Yang, X. D. Wang and R. Allan 1729

Grid portal solutions: a comparison of GridPortlets and OGCE
C. Zhang, I. Kelley and G. Allen 1739

Volume 19 Number 13 10 September 2007

Collective communication: theory, practice, and experience
E. Chan, M. Heimlich, A. Purkayastha and R. van de Geijn 1749

KDDML-G: a grid-enabled knowledge discovery system
A. Romei, M. Sciolla, F. Turini and M. Valentini 1785

Performance analysis and improvement for BitTorrent-like file sharing systems
Y. Tian, D. Wu and K.-W. Ng 1811

Enabling service adaptability with versatile anycast
M. Szymaniak, G. Pierre, M. Simons-Nikolova and M. van Steen 1837

Parallel computation on multilayer cluster grids
R. Zarrelli and M. Petrone 1865

Volume 19 Number 14 25 September 2007

Special Issue

Middleware for Grid Computing: A 'Possible Future'

Editorial
B. Schulze, G. Coulson, R. Nandkumar and P. Henderson 1879

MyCoG.NET: a multi-language CoG toolkit
A. Paventhan, K. Takeda, S. J. Cox and D. A. Nicole 1885

Towards an autonomic approach for edge computing
M. Desertot, C. Escoffier and D. Donsez 1901

Using a virtual machine to protect sensitive Grid resources
X. Zhao, K. Borders and A. Prakash 1917

Relative autonomous accounting for peer-to-peer Grids
R. Santos, A. Andrade, W. Cirne, F. Brasileiro and N. Andrade 1937

Distributed and dynamic self-scheduling of parallel MPI Grid applications
A. P. Nascimento, A. C. Sena, C. Boeres and V. E. F. Rebello 1955

Towards increased expressiveness in service level agreements
V. Yarmolenko and R. Sakellariou 1975

GRAND: toward scalability in a Grid environment
P. K. Vargas, I. C. Dutra, V. D. do Nascimento, L. A. S. Santos, L. C. da Silva, C. F. R. Geyer and B. Schulze 1991

Volume 19 Number 15 October 2007

Special Issue
Progress of the Knowledge Grid (SKG2005)

Editorial
G. C. Fox and X. Sun 2011

Distributed end-host multicast algorithms for the Knowledge Grid
W. Tu, J. K. Muppala and H. Zhuge 2013

Using semantic links to support top-K join queries in peer-to-peer networks
J. Liu, L. Feng and H. Zhuge 2031

MS-Analyzer: preprocessing and data mining services for proteomics applications on the Grid
M. Cannataro and P. Veltri 2047

The potential energy of knowledge flow
H. Zhuge, W. Guo and X. Li 2067

A user reputation model for a user-interactive question answering system
W. Chen, Q. Zeng, L. Wenyin and T. Hao 2091

Volume 19 Number 16 November 2007

Special Issue
Selection of Best Papers of the VLDB Data Management in Grids Workshop (VLDB DMG 2006)

Editorial
J.-M. Pierson and L. Brunie 2105

Discovering data sources in a dynamic Grid environment
J. Göres and S. Dessloch 2109

DTM: a service for managing data persistency and data replication in network-enabled server environments
B. Del-Fabbro, D. Laiymani, J.-M. Nicod and L. Philippe 2125

Management of a cooperative cache in grids with grid cache services
Y. Cardenas, J.-M. Pierson and L. Brunie 2141

Integrating and mining distributed environmental archives on Grids
M. Zhizhin, E. Kihn, R. Redmon, A. Poyda, D. Mishin, D. Medvedev and V. Lyutsarev 2157

Security and performance enhancements to OGSA-DAI for Grid data virtualization
M. Adamski, M. Kulczewski, K. Kurowski, J. Nabrzyski and A. Hume 2171

Volume 19 Number 17 10 December 2007

Special Issue
Parallel and Distributed Computing (EuroPar 2005)

Editorial
J. C. Cunha and P. D. Medeiros 2183

APEX-Map: a parameterized scalable memory access probe for high-performance computing systems
E. Strohmaier and H. Shan 2185

A framework for performance analysis of Co-Array Fortran
B. Mohr, L. DeRose and J. Vetter 2207

Predicting parallel application performance via machine learning approaches
K. Singh, E. İpek, S. A. McKee, B. R. de Supinski, M. Schulz and R. Caruana 2219

Multi-installment divisible load processing in heterogeneous distributed systems
M. Drozdowski and M. Lawenda 2237

A framework for the design of dependent-failure algorithms
F. Junqueira and K. Marzullo 2255

Version Vector Weighted Voting protocol: efficient and fault-tolerant commitment for weakly connected replicas
J. Barreto and P. Ferreira 2271

Efficient truthful mechanisms for the single-source shortest paths tree problem
L. Gualà and G. Proietti 2285

Proactive gossip-based management of semantic overlay networks
S. Voulgaris, M. van Steen and K. Iwanicki 2299

Volume 19 Number 18 25 December 2007

Special Issue

Current Trends in Compilers for Parallel Computers (CPC2006)

Editorial
J. Touriño, B. B. Fraguela, R. Doallo and M. Arenaz 2313

OpenUH: an optimizing, portable OpenMP compiler
C. Liao, O. Hernandez, B. Chapman, W. Chen and W. Zheng 2317

JaMP: an implementation of OpenMP for a Java DSM
M. Klemm, M. Bezold, R. Veldema and M. Philippsen 2333

Fast synchronization for quasi-immutable objects
H. Nishiyama and K. Nakajima 2353

Classification and generation of schedules for VLIW processors
C. Kessler, A. Bednarski and M. Eriksson 2369

PALF: compiler supports for irregular register files in clustered VLIW DSP processors
Y.-C. Lin, Y.-P. You and J.-K. Lee 2391

Automated and accurate cache behavior analysis for codes with irregular access patterns
D. Andrade, M. Arenaz, B. B. Fraguela, J. Touriño and R. Doallo 2407

Efficient search-space pruning for integrated fusion and tiling transformations
X. Gao, S. Krishnamoorthy, S. K. Sahoo, C.-C. Lam, G. Baumgartner, J. Ramanujam and P. Sadayappan 2425
